Dear Mr. Lang:

I am responding to your right to know request dated August 24, 2011 in which you ask for documents related to the Town of Salem providing authorization or instructions to the Local Government Center Risk Pools regarding operational decisions the LGC took in the administration of those pooled risk management programs.

Please note that while the Town of Salem may be a participant in the Local Government Center's HealthTrust or Property-Liability Trust Risk Pools and has taken the required actions for a political subdivision to participate in those pooled risk management programs, the Town of Salem is not directly responsible for the governance of those pools. Rather, that authority for the operation and administration of the LGC pools rests with the board of directors of LGC, who are appointed and elected, officials of various local governments across the state and employees of the same.

As such, the Town of Salem does not have any documents that are responsive to your request.
